West: Single Family Residential / A-1-1 and A-2-1

GENERAL PLAN

Santa Clarita Valley Area
Plan

DESIGNATION

N1 (Non-Urban 1)

MAXIMUM DENSITY

0.5 dwelling units per
acre

CONSISTENCY

Yes

ENVIRONMENTAL STATUS

A Negative Declaration has been recommended for this project pursuant to the California Environmental Quality Act ("CEQA") and the Los Angeles County Environmental Guidelines. Based on the initial study, it has been determined that the project will not have a significant effect on the environment.

DESCRIPTION OF SITE PLAN

The Tentative Parcel Map and Exhibit "A" dated May 20, 2008, depicts two residential parcels on 12.49 gross acres. These parcels would both have a long and narrow shape. Each is over 1,500 feet long and is about 168 feet wide. Access to the parcels is provided by Michael Street to the north via driveways along the east and west sides of the project. The driveway along the west side of the project would serve Parcel 1 and is proposed to be approximately 600 feet long. The driveway along the east side of the project would serve Parcel 2 and is proposed to be approximately 750 feet long. 12,000 CY of cut and 10,600 CY of fill is proposed for grading of the property.

KEY ISSUES

- A Hillside Management CUP is required to create 2 parcels on this property since the slope density analysis shows that these 2 parcels would exceed the Low Density Threshold of 1.9 units.

(If more space is required, use opposite side)

TO BE COMPLETED ONLY ON CASES TO BE HEARD BY THE BOARD OF SUPERVISORS

Department of Regional Planning

Planning for the Challenges Ahead

**NOTICE OF PUBLIC HEARING FOR
A PROPOSED LAND DIVISION
NOTICE OF INTENT TO ADOPT A NEGATIVE DECLARATION**

Bruce W. McClendon FAICP
Director of Planning

**TENTATIVE PARCEL MAP NO. 069445
HILLSIDE MANAGEMENT CUP NO. 2007-00144-(5)**

Notice is hereby given that the Los Angeles County Regional Planning Commission will conduct a public hearing concerning this proposed land development on Tuesday, November 4, 2008, at 9:00 a.m., in Room 150, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. Room 150 will open to the public at 8:50 a.m. Interested persons will be given an opportunity to testify.

Project Location: The property is located on the south side of Michael Street, 1000 feet east of Penman Road, within the unincorporated community of Agua Dulce and within the Soledad Zoned District of Los Angeles County.

Project Description: The tentative parcel map proposes to create two single family parcels with one shared water well on 12.49 gross acres. The associated Hillside Management CUP is required to ensure compliance with hillside management design criteria.

Environmental Determination: A Negative Declaration has been prepared for this project. The draft environmental document concludes that the project design will not have a significant impact on the environment. Notice is hereby given that the County of Los Angeles will consider a recommendation to adopt a Negative Declaration.

This project does not affect the zoning of surrounding properties. If you are unable to attend the public hearing but wish to send written comments, please write to the Department of Regional Planning at the address given below, Attention: Josh Huntington. You may also obtain additional information concerning this case by phoning Mr. Huntington at (213) 974-6433. Callers from North County areas may dial (661) 272-0964 (Antelope Valley) or (661) 253-0111 (Santa Clarita) and then ask to be connected to (213) 974-6433. Public service hours: 7:30 a.m. to 5:30 p.m., Monday through Thursday. Our office is closed on Fridays.

If you challenge a County action in Court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice or in written correspondence delivered to the Regional Planning Commission at, or prior to, the public hearing.

Case materials are available for inspection during regular working hours at the Department of Regional Planning, Land Divisions Section, Room 1382, Hall of Records, 320 West Temple Street, Los Angeles, California 90012; Telephone (213) 974-6433. Public service hours: 7:00 a.m. to 5:30 p.m., Monday through Thursday. **Our office is closed on Fridays.** These materials will also be available for review beginning May 31, 2008 at the Compton Library located at 240 W. Compton Blvd., Compton, CA 90220-3109, (310) 637-0202. Selected materials are also available on the Department of Regional Planning website at <http://planning.lacounty.gov>.

**STAFF ANALYSIS
November 4, 2008 HEARING OFFICER PUBLIC HEARING**

PROJECT OVERVIEW

The applicants, Daniel Guin, Jacque Mellor-Guin, Ellis Herz, and Sarah Herz, are proposing to resubdivide Lot 10 of Tract Map No. 42379 to create two single family parcels with a shared water well on 12.49 gross acres.

A Negative Declaration has been recommended for this project pursuant to the California Environmental Quality Act ("CEQA") and the Los Angeles County Environmental Guidelines.

The proposed development is within the A-1-1 (Light Agricultural – One Acre Minimum Required Lot Area) and A-2-1 (Heavy Agricultural – One Acres Minimum Required Lot Area) Zones.

A Conditional Use Permit is required to ensure compliance with non-urban hillside management design criteria.

DESCRIPTION OF PROJECT PROPERTY

Location: The property is located on the south side of Michael Street, 1000 feet east of Penman Road, within the unincorporated community of Agua Dulce and within the Soledad Zoned District of Los Angeles County.

Physical Features: The subject property is approximately 12.49 gross acres and 12.00 net acres in size. It is roughly rectangular in shape with sloped topography. The subject property is currently vacant.

Access: The property takes access from Michael Street, a 60-foot wide private and future street to the north of the property. Michael Street connects to Penman Road, a 64-foot wide private and future street. Penman Road connects to Sierra Highway, a 100-foot wide major public highway.

Services: The two proposed parcels will be served by septic systems and a shared well.

ENTITLEMENTS REQUESTED

Parcel Map: The applicant has requested the approval of Parcel Map No. 069445. The subdivision request is to create two single family parcels with a shared water well on 12.49 gross acres.

Conditional Use Permit: The applicant has requested the approval of Conditional Use Permit No. 2007-00144-(5) to ensure compliance with non-urban hillside management design criteria.

EXISTING ZONING

The subject property is zoned A-1-1 and A-2-1. The areas to the north is zoned A-1-1, the areas to the east and west are zoned both A-1-1 and A-2-1, and the area to the south of the subject property is zoned A-2-1.

EXISTING LAND USES

The subject property is currently vacant. The property is surrounded on all sides by single family residential properties. There is also some vacant land to the south.

PREVIOUS CASE/ZONING HISTORY

The current A-1-1 and A-2-1 zoning on the property became effective on September 30, 1958 following the adoption of Ordinance Number 7401 which amended the Soledad Zoned District.

This property was created by a previous subdivision. Tract No. 42379 was recorded on June 23, 1982 and created 16 lots. The subject property is Lot 10 of this subdivision. This resubdivision complies with all of the requirements of the previous subdivision.

PROJECT DESCRIPTION

The vesting tentative Parcel Map and Exhibit "A" dated May 20, 2008, depicts two residential parcels on 12.49 gross acres. These two parcels proposed parcels both have a long and narrow shape. Each is over 1,500 feet deep and is about 168 feet wide. Parcel 1 is 6.13 gross acres and 6.00 net acres in size, and Parcel 2 is 6.36 gross acres and 6.24 net acres in size. Access to the parcels is provided by Michael Street to the north via driveways along the east and west sides of the project. The driveway along the west side of the project would serve Parcel 1 and is proposed to be approximately 600 feet long. The

driveway along the east side of the project would serve Parcel 2 and is proposed to be approximately 750 feet long.

SANTA CLARITA VALLEY AREA PLAN CONSISTENCY

The subject property is located within the N1 (Non-Urban 1) land use classification of the Santa Clarita Valley Area Plan ("Plan"), a component of the Los Angeles Countywide General Plan ("General Plan"). The N1 classification allows a maximum density of 0.5 dwelling units per acre. The proposed subdivision's density is 0.16 dwelling units per acre. Therefore, the proposed density is consistent with the density requirement of the Plan.

The Plan outlines policies specifically relating to the Agua Dulce area. This project is consistent with several of the policies of the Plan. One of these policies is that "future growth should be limited to an overall density of one unit per two acres." The proposed subdivision is consistent with this policy. The Plan also outlines several areawide policies. The proposed project is also consistent with several of these Plan's areawide policies. These policies include:

- 2.2 Determine future land use growth in the Santa Clarita Valley by considering the following criteria:
 - a. Sensitivities of natural environmental systems;
 - b. Hazards or constraints of natural environmental systems of land use;
- 5.2 Minimize disruption and degradation of the environment as development occurs, working with nature in the design of land uses so that they are compatible with natural environmental systems.

Therefore, this project is consistent with the General Plan.

Conditional Use Permit

A CUP is required to ensure compliance with non-urban hillside management design criteria. These criteria include the location and extent of the proposed grading. The proposed grading on the property is 12,000 cubic yards of cut and 10,600 cubic yards of fill. The majority of this grading would take place in areas of the property that have a slope of less than 25%. There would also be a small amount of grading proposed in areas where there is a slope of 25%-50%, but no grading is proposed in areas where there are slopes of over 50%. The applicants have also set aside more than the required 70% open space. The applicants have proposed that 71.5% of the proposed subdivision be ungraded, natural open space.

In addition to the standard burden of proof, pursuant to Section 22.56.215 F.1 of the County Code, the applicant must meet the following burden of proof:

- a. That the proposed project is located and designed so as to protect the safety of current and future community residents, and will not create significant threats to life and/or property due to the presence of geologic, seismic, slope instability, fire, flood, mud flow, or erosion hazard, and
- b. That the proposed project is compatible with the natural, biotic, cultural, scenic and open space resources of the area, and
- c. That the proposed project is conveniently served by (or provides) neighborhood shopping and commercial facilities, can be provided with essential public services without imposing undue costs on the total community, and is consistent with the objectives and policies of the General Plan, and
- d. That the proposed development demonstrates creative and imaginative design, resulting in a visual quality that will complement community character and benefit current and future community residents;

The applicant's Burden of Proof responses are attached.

ENVIRONMENTAL DOCUMENTATION

A Negative Declaration has been recommended for this project pursuant to the California Environmental Quality Act ("CEQA") and the Los Angeles County Environmental Guidelines. It was determined that this project will not exceed the established threshold criteria for any environmental/service factor and, as a result, will not have a significant effect on the physical environment.

COUNTY DEPARTMENT AND AGENCY COMMENTS AND RECOMMENDATIONS

The Los Angeles County Subdivision Committee consists of the Departments of Regional Planning, Public Works, Fire, Parks and Recreation, and Public Health. The Subdivision Committee has reviewed the vesting tentative Parcel Map and Exhibit "A" dated May 20, 2008, and recommends approval of the project with the attached conditions.

LEGAL NOTIFICATION/COMMUNITY OUTREACH

On October 1, 2008, hearing notices regarding this proposal were mailed to all property owners as identified on the current Assessor's record within 1,000 feet of the subject property.

The public hearing notice was published in The Santa Clarita Signal on October 4, 2008 and La Opinion on October 4, 2008. Project materials, including a vesting tentative Parcel Map, Land Use Map, draft staff report, and County draft conditions of

approval were sent to the Canyon Country Jo Anne Darcy Library on October 2, 2008. A hearing notice was posted on the subject property on October XX, 2008.

CORRESPONDENCE RECEIVED

On June 23, 2008, the Agua Dulce Town Council sent a letter to staff stating that the proposed project complies with the minimum lot sizes allowed in the Community Standards District.

STAFF EVALUATION

The proposed development is consistent with all applicable provisions of the General Plan and the A-1-1 and A-2-1 Zones. The subject property is surrounded by compatible uses and has access to a County-maintained street. All required public services and necessary infrastructure can be provided for the proposed subdivision.

The applicants have applied for a Conditional Use Permit to ensure compliance with hillside management design criteria. The applicants have also applied for a Director's Review for a shared water well. This review will have to be approved before the final map can be recorded.

STAFF RECOMMENDATION

Staff recommends that the Hearing Officer close the public hearing, adopt the negative declaration, and approve vesting tentative Parcel Map No. 069445 and Nonconforming Review No. 2007-00144-(5) with the attached findings and conditions.

CONDITIONS

1. This grant authorizes the use of the 12.49 acre subject property for a maximum of two single-family residential parcels in compliance with non-urban hillside management design review criteria, as depicted on the approved Exhibit "A", subject to all of the following conditions of approval.
2. This grant shall not be effective for any purpose until the permittee, and the owner of the subject property if other than the permittee, have filed at the office of the Los Angeles County Department of Regional Planning ("Regional Planning") an affidavit stating that they are aware of, and agree to accept, all the conditions of this grant and that the conditions have been recorded as required by Condition No. 8, and until all required monies have been paid pursuant to Conditions No. 9.
3. Unless otherwise apparent from the context, the term "permittee" shall include the applicant and any other person, corporation, or entity making use of this grant.
4. If any provision of this grant is held or declared to be invalid, the permit shall be void and the privileges granted hereunder shall lapse.
5. Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Los Angeles County Regional Planning Commission or Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if it finds that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public health or safety or so as to be a nuisance.
6. The subject property shall be developed and maintained in full compliance with the conditions of this grant and any law, statute, ordinance or other regulation applicable to any development or activity on the subject property. Failure of the permittee to cease any development or activity not in full compliance shall be a violation of these conditions.
7. If inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the property is being used in violation of any condition of this grant, the permittee shall be financially responsible and shall reimburse Regional Planning for all inspections and for any enforcement efforts necessary to bring the subject property into compliance. Inspections shall be made to ensure compliance with the conditions of this grant as well as adherence to development in accordance with the approved site plan on file. The amount charged for inspections shall be the amount equal to the recovery cost at the time of payment (currently \$150.00 per inspection).

8. The property owner or permittee shall record the terms and conditions of this grant in the office of the Los Angeles County Recorder. In addition, upon any transfer or lease of the subject property during the term of this grant, the property owner or permittee shall promptly provide a copy of the grant and its terms and conditions to the transferee or lessee of the subject property.
9. Within five (5) days of the approval date of this grant, remit a **\$1,926.75** processing fee payable to the County of Los Angeles in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the California Public Resources Code and Section 711 of the California Fish and Game Code to defray the costs of fish and wildlife protection and management incurred by the California Department of Fish and Game. No land use project subject to this requirement is final, vested or operative until the fee is paid.
10. The permittee shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void or annul this permit approval, which action is brought within the applicable time period of Government Code Section 65009 or any other applicable limitation period. The County shall notify the permittee of any claim, action or proceeding and the County shall reasonably cooperate in the defense.
11. In the event that any claim, action, or proceeding as described above is filed against the County, the permittee shall within ten days of the filing pay Regional Planning an initial deposit of \$5,000.00, from which actual costs shall be billed and deducted for the purpose of defraying the expenses involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the permittee or permittee's counsel. The permittee shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:
 - a. If during the litigation process, actual costs incurred reach 80 percent of the amount on deposit, the permittee shall deposit additional funds sufficient to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation; and
 - b. At the sole discretion of the permittee, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the permittee in accordance with Los Angeles County Code Section 2.170.010.

14. This grant shall expire unless used within two years after the recordation of a final map for Vesting Tentative Parcel Map No. 069445. In the event that Vesting Tentative Parcel Map No. 069445 should expire without the recordation of a final map, this grant shall expire upon the expiration of the vesting tentative map. Entitlement to the use of the property thereafter shall be subject to the regulations then in effect.
15. The subject property shall be graded, developed and maintained in substantial compliance with the approved vesting tentative parcel map dated May 20, 2008. An amended or revised tentative parcel map approved for Vesting Tentative Parcel Map No. 069445 may, at the discretion of the Director of Planning, constitute a revised Exhibit "A". All revised plans shall require the written authorization of the property owner.
16. All development shall comply with the requirements of the Zoning Ordinance and of the specific zoning of the subject property, except as specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of Planning.
17. The area of individual lots shall substantially conform to that shown on the approved Exhibit "A".
18. The development of the subject property shall conform to the conditions approved for Vesting Tentative Parcel Map No. 069445.
19. No structure shall exceed a height of 35 feet above grade, except for chimneys and rooftop antennas.
20. All structures shall comply with the requirements of the Division of Building and Safety of the Los Angeles County Department of Public Works ("Public Works").
21. Detonation of explosives or any other blasting devices or material shall be prohibited unless all required permits have been obtained.
22. All grading and construction on the subject property and appurtenant activities, including engine warm-up, shall be restricted to the hours between 7:00 a.m. and 6:00 p.m. Monday through Friday. No Saturday, Sunday or holiday operations are permitted.
23. The permittee shall implement a dust control program during grading and construction to the satisfaction of the Director of Public Works.
24. The permittee shall, upon commencement of any grading activity allowed by this permit, diligently pursue all grading to completion.

25. No construction equipment or vehicles shall be parked or stored on any existing public or private streets.
26. The permittee shall obtain all necessary permits from Public Works and shall maintain all such permits in full force and effect throughout the life of this permit.
27. All construction and development within the subject property shall comply with the applicable provisions of the Building Code and the various related mechanical, electrical, plumbing, fire, grading and excavation codes as currently adopted by the County of Los Angeles.
28. All structures, walls and fences open to public view shall remain free of extraneous markings, drawings, or signage. These shall include any of the above that do not directly relate to the use of the premises or that do not provide pertinent information about said premises. The only exceptions shall be seasonal decorations or signage provided under the auspices of a civic or non-profit organization.
29. In the event such extraneous markings occur, the permittee shall remove or cover said markings, drawings, or signage no later than 24 hours after such occurrence, weather permitting. Paint utilized in covering such markings shall be of a color that matches, as closely as possible, the color of the adjacent surfaces.
30. The permittee shall utilize water-saving devices and technology in the construction of this project to the extent feasible and consistent with the Los Angeles County Building and Plumbing Codes.
31. Prior to the issuance of any grading and/or building permit, the permittee shall submit to the Director of Regional Planning for review and approval three (3) copies of a revised Exhibit "A" (fully dimensioned, detailed site plan), indicating that the proposed construction and associated grading:
 - a. complies with the conditions of this grant and the standards of the zone; and
 - b. is compatible with hillside resources.
32. All graded slopes (cut and fill) shall be revegetated. Prior to the issuance of any grading or building permit, three (3) copies of a landscape plan, which may be incorporated into a revised Exhibit "A", shall be submitted to and approved by the Director of Regional Planning before issuance of any building permit. The landscape plan shall show size, type, and location of all plants, trees, and watering facilities. All landscaping shall be maintained in a neat, clean, and healthful condition, including proper pruning, weeding, removal of litter, fertilizing and replacement of plants when necessary.

In addition to the review and approval by the Director of Regional Planning, the landscaping plans will be reviewed by the staff biologist of Regional Planning and the Los Angeles County Forester and Fire Warden. Their review will include an evaluation of the balance of structural diversity (e.g. trees, shrubs and groundcover) that could be expected 18 months after planting in compliance with fire safety requirements.

The landscaping plan must show that at least 50% of the area covered by landscaping will contain only locally indigenous species, including not only trees, but shrubs and ground covering as well. However, if the permittee demonstrates to the satisfaction of the Director of Regional Planning that compliance with this requirement is not possible due to County fire safety requirements, then the Director of Regional Planning may determine that a lower percentage of such planting shall be required. In those areas where the Director of Regional Planning approves a lower percentage, the amount of such required locally indigenous vegetation shall be at least 30%. The landscaping will include trees, shrubs and ground covering at a mixture and density determined by the Director of Regional Planning and the Forester and Fire Warden. Fire retardant plants shall be given first consideration.

Timing of Planting. Prior to the issuance of building permits for any construction, the permittee shall submit a landscaping phasing plan for the landscaping associated with that construction to be approved by the Director of Regional Planning. This phasing plan shall establish the timing and sequencing of the required landscaping, including required plantings within six months and expected growth during the subsequent 18 months.

33. No grading permit shall be issued prior to the recordation of a final map except as authorized by the Director of Planning.
34. Ungraded open space shall comprise at least 71.5 percent of the net area of the project which shall be at least 8.93 acres, as depicted on the approved Exhibit "A" dated May 20, 2008. No development is planned beyond the building pads to ensure the open space is permanently maintained.

**DEPARTMENT OF REGIONAL PLANNING
VESTING TENTATIVE PARCEL MAP NO. 069445**

Map Date: May 20, 2008

CONDITIONS:

1. Conform to the requirements of Title 21 of the Los Angeles County Code ("County Code"), including the requirements of the A-1-1 and A-2-1 zones, as well as the requirements of the Agua Dulce Community Standards District ("CSD").
2. Within five (5) days of the vesting tentative map approval date, remit a \$1,926.75 processing fee payable to the County of Los Angeles in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the California Public Resources Code and Section 711 of the California Fish and Game Code to defray the costs of fish and wildlife protection and management incurred by the California Department of Fish and Game. No project subject to this requirement is final, vested or operative until the fee is paid.
3. A final parcel map is required. A waiver is not allowed.
4. The applicants have applied for a Director's Review for a shared water well. This application must be approved before final map recordation.
5. The Subdivider shall defend, indemnify and hold harmless the County of Los Angeles ("County"), its agents, officers, and employees from any claim, action or proceeding against the County or its agents, officers, and employees to attack, set aside, void or annul this parcel map approval, or related discretionary approvals, whether legislative or quasi-judicial, which action is brought within the applicable time period of the Government Code Section 65499.37 or any other applicable time period. The County shall promptly notify the Subdivider of any claim, action or proceeding and the County shall cooperate reasonably in the defense.
6. In the event that any claim, action or proceeding as described above is filed against the County, the Subdivider shall within ten days of the filing pay Regional Planning an initial deposit of \$5,000.00 from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the Subdivider, or the Subdivider's counsel. The Subdivider shall pay the following supplemental deposits, from which actual costs shall be billed and deducted:
 - a. If during the litigation process, actual costs incurred reach 80 percent of the deposit amount, the Subdivider shall deposit additional funds to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to the completion of the litigation.

- b. At the sole discretion of the Subdivider, the amount of the initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the Subdivider according to the County Code Section 2.170.010.

Except as modified herein above, this approval is subject to all the conditions set forth in the attached mitigation monitoring program and the attached reports recommended by the Los Angeles County Subdivision Committee.

Page 1/3

TENTATIVE MAP DATED 05-20-2008
EXHIBIT "A" MAP DATED 05-20-2008

The following reports consisting of 10 pages are the recommendations of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Details and notes shown on the tentative map are not necessarily approved. Any details or notes which may be inconsistent with requirements of ordinances, general conditions of approval, or Department policies must be specifically approved in other conditions, or ordinance requirements are modified to those shown on the tentative map upon approval by the Advisory agency.
2. Easements are tentatively required, subject to review by the Director of Public Works to determine the final locations and requirements.
3. Easements shall not be granted or recorded within areas proposed to be granted, dedicated, or offered for dedication for public streets, highways, access rights, building restriction rights, or other easements until after the final map is filed with the Registrar-Recorder/County Clerk's Office. If easements are granted after the date of tentative approval, a subordination must be executed by the easement holder prior to the filing of the final map.
4. In lieu of establishing the final specific locations of structures on each parcel at this time, the owner, at the time of issuance of a grading or building permit, agrees to develop the property in conformance with the County Code and other appropriate ordinances such as the Building Code, Plumbing Code, Grading Ordinance, Highway Permit Ordinance, Mechanical Code, Zoning Ordinance, Undergrounding of Utilities Ordinance, Water Ordinance, Sanitary Sewer and Industrial Waste Ordinance, Electrical Code, and Fire Code. Improvements and other requirements may be imposed pursuant to such codes and ordinances.
5. All easements existing at the time of final map approval must be accounted for on the approved tentative map. This includes the location, owner, purpose, and recording reference for all existing easements. If an easement is blanket or indeterminate in nature, a statement to that effect must be shown on the tentative map in lieu of its location. If all easements have not been accounted for, submit a corrected tentative map to the Department of Regional Planning for approval.
6. Adjust, relocate, and/or eliminate lot lines, lots, streets, easements, grading, geotechnical protective devices, and/or physical improvements to comply with ordinances, policies, and standards in effect at the date the County determined the application to be complete all to the satisfaction of Public Works.

7. Quitclaim or relocate easements running through proposed structures.
8. Delineate proof of access to a public street on the final map.
9. The following note shall be placed on all tract and parcel maps with lot/parcel sizes of five acres or more: "Further division of this property to lot/parcel sizes below five acres will require standard improvements be completed as a condition of approval. The improvements will include but not limited to providing access, installation of water mains, appurtenances and fire hydrants, and conformance to Los Angeles County development standards."
10. Extend lot lines to the center of private and future streets or provide separate lots for the private and future streets.
11. Grant ingress/egress and utility easements to the public over the private and future or future streets.
12. A final parcel map must be processed through the Director of Public Works prior to being filed with the Registrar-Recorder/County Clerk's Office, unless the final parcel map is waived by the Advisory Agency.
13. Prior to submitting the parcel map to the Director of Public Works for examination pursuant to Section 66442 of the Government Code, obtain clearances from all affected Departments and Divisions, including a clearance from the Subdivision Mapping Section of the Land Development Division of Public Works for the following mapping items; mathematical accuracy; survey analysis; and correctness of certificates, signatures, etc.
14. If signatures of record title interests appear on the final map, a preliminary guarantee is needed. A final guarantee will be required at the time of filing of the final map with the Registrar-Recorder/County Clerk's Office. If said signatures do not appear on the final map, a title report/guarantee is needed showing all fee owners and interest holders and this account must remain open until the final parcel map is filed with the Registrar-Recorder/County Clerk's Office.

EXHIBIT "A" MAP DATED 05-20-2008

15. Within 30 days of the approval date of this land use entitlement or at the time of first plan check submittal, the applicant shall deposit the sum of \$2,000 (Minor Land Divisions) or \$5,000 (Major Land Divisions) with Public Works to defray the cost of verifying conditions of approval for the purpose of issuing final map clearances. This deposit will cover the actual cost of reviewing conditions of approval for Conditional Use Permits, Tentative Tract and Parcel Maps, Vesting Tentative Tract and Parcel Maps, Oak Tree Permits, Specific Plans, General Plan Amendments, Zone Changes, CEQA Mitigation Monitoring Programs and Regulatory Permits from State and Federal Agencies (Fish and Game, USF&W, Army Corps, RWQCB, etc.) as they relate to the various plan check activities and improvement plan designs. In addition, this deposit will be used to conduct site field reviews and attend meetings requested by the applicant and/or his agents for the purpose of resolving technical issues on condition compliance as they relate to improvement plan design, engineering studies, highway alignment studies and tract/parcel map boundary, title and easement issues. When 80% of the deposit is expended, the applicant will be required to provide additional funds to restore the initial deposit. Remaining balances in the deposit account will be refunded upon final map recordation.

GRADING BY SUBDIVIDER [Y] (Y or N)
REPORT DATE ---
REPORT DATE 8/29/07, 8/4/06

TENTATIVE MAP FEASIBILITY IS RECOMMENDED FOR APPROVAL FROM A GEOLOGIC STANDPOINT

THE FOLLOWING CONDITIONS MUST BE FULFILLED:

1. The final map must be approved by the Geotechnical and Materials Engineering Division (GMED) to assure that all geotechnical requirements have been properly depicted. For Final Map clearance guidelines refer to GS051.0 in the Manual for Preparation of Geotechnical Reports (<http://www.dpw.lacounty.gov/gmed/manual.pdf>).
2. A grading plan must be geotechnically approved by the GMED prior to Final Map approval. The grading depicted on the plan must agree with the grading depicted on the tentative tract or parcel map and the conditions approved by the Planning Commission. If the subdivision is to be recorded prior to the completion and acceptance of grading, corrective geologic bonds may be required.
3. Prior to grading plan approval a detailed engineering geology and soils engineering report must be submitted that addresses the proposed grading. All recommendations of the geotechnical consultants must be incorporated into the plan (Refer to the Manual for Preparation of Geotechnical Reports at <http://www.dpw.lacounty.gov/gmed/manual.pdf>).
4. All geologic hazards associated with this proposed development must be eliminated. Alternatively, the geologic hazards may be designated as restricted use areas (RUA), and their boundaries delineated on the Final Map. These RUAs must be approved by the GMED, and the subdivider must dedicate to the County the right to prohibit the erection of buildings or other structures within the restricted use areas (refer to GS063.0 in the manual for preparation of Geotechnical Reports).
5. The Soils Engineering review dated 6-16-08 is attached.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

REQUIREMENTS PRIOR TO GRADING PLAN APPROVAL:

1. Submit the following agency approvals:
 - a. Drainage Concept or Hydrology approved by the Storm Drain and Hydrology Section of Land Development Division.
 - b. Provide soil/geology approval of the grading plan by the Geotechnical & Materials Engineering Division (GMED).

REQUIREMENTS PRIOR TO FINAL MAP RECORDATION:

2. Submit a grading plan for approval. The grading plans must show and call out the construction of at least all drainage devices and details, paved driveways, elevation and drainage of all pads, landscaping and SUSMP devices if applicable. The applicant is required to show and call out existing easements on the grading plan and obtain the easement holder approvals.
3. A maintenance agreement may be required for privately maintained drainage devices.

CONDITIONS OF APPROVAL FOR SUBDIVISION - UNINCORPORATED

Subdivision: PM 69445 Map Date May 20, 2008 - Ex. A

C.U.P. _____ Vicinity Map _____

- ☐ **FIRE DEPARTMENT HOLD** on the tentative map shall remain until verification from the Los Angeles County Fire Dept. Planning Section is received, stating adequacy of service. Contact (323) 881-2404.
- ☒ Access shall comply with Title 21 (County of Los Angeles Subdivision Code) and Section 902 of the Fire Code, which requires all weather access. All weather access may require paving.
- ☒ Fire Department access shall be extended to within 150 feet distance of any exterior portion of all structures.
- ☒ Where driveways extend further than 150 feet and are of single access design, turnarounds suitable for fire protection equipment use shall be provided and shown on the final map. Turnarounds shall be designed, constructed and maintained to insure their integrity for Fire Department use. Where topography dictates, turnarounds shall be provided for driveways that extend over 150 feet in length.
- ☒ The private driveways shall be indicated on the final map as "Private Driveway and Firelane" with the widths clearly depicted. Driveways shall be maintained in accordance with the Fire Code.
- ☐ Vehicular access must be provided and maintained serviceable throughout construction to all required fire hydrants. All required fire hydrants shall be installed, tested and accepted prior to construction.
- ☒ This property is located within the area described by the Fire Department as "Very High Fire Hazard Severity Zone" (formerly Fire Zone 4). A "Fuel Modification Plan" shall be submitted and approved prior to final map clearance. (Contact: Fuel Modification Unit, Fire Station #32, 605 North Angeleno Avenue, Azusa, CA 91702-2904, Phone (626) 969-5205 for details).
- ☒ Provide Fire Department or City approved street signs and building access numbers prior to occupancy.
- ☐ Additional fire protection systems shall be installed in lieu of suitable access and/or fire protection water.
- ☐ The final concept map, which has been submitted to this department for review, has fulfilled the conditions of approval recommended by this department for access only.
- ☐ These conditions must be secured by a C.U.P. and/or Covenant and Agreement approved by the County of Los Angeles Fire Department prior to final map clearance.
- ☐ The Fire Department has no additional requirements for this division of land.

Comments: Access widths as shown on the Exhibit Map are adequate. Indicate compliance during the building plan phase prior to building permit issuance.

WATER SYSTEM REQUIREMENTS - UNINCORPORATED

Subdivision No. PM 69445 Tentative Map Date May 20, 2008 - Ex. A

Revised Report _____

- ☒ The County Forester and Fire Warden is prohibited from setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted. However, water requirements may be necessary at the time of building permit issuance.
- ☐ The required fire flow for public fire hydrants at this location is _____ gallons per minute at 20 psi for a duration of _____ hours, over and above maximum daily domestic demand. _____ Hydrant(s) flowing simultaneously may be used to achieve the required fire flow.
- ☐ The required fire flow for private on-site hydrants is _____ gallons per minute at 20 psi. Each private on-site hydrant must be capable of flowing _____ gallons per minute at 20 psi with two hydrants flowing simultaneously, one of which must be the furthest from the public water source.
- ☐ Fire hydrant requirements are as follows:
- Install _____ public fire hydrant(s). Verify / Upgrade existing _____ public fire hydrant(s).
- Install _____ private on-site fire hydrant(s).
- ☐ All hydrants shall measure 6"x 4"x 2-1/2" brass or bronze, conforming to current AWWA standard C503 or approved equal. All on-site hydrants shall be installed a minimum of 25' feet from a structure or protected by a two (2) hour rated firewall.
- ☐ Location: As per map on file with the office.
- ☐ Other location: _____
- ☐ All required fire hydrants shall be installed, tested and accepted or bonded for prior to Final Map approval. Vehicular access shall be provided and maintained serviceable throughout construction.
- ☐ The County of Los Angeles Fire Department is not setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted.
- ☒ Water system requirements will be required when this land is further subdivided and/or during the building permit process.
- ☐ Hydrants and fire flows are adequate to meet current Fire Department requirements.
- ☐ Upgrade not necessary, if existing hydrant(s) meet(s) fire flow requirements. Submit original water availability form to our office.

Comments: Water requirements will be determined prior to building permit issuance.

All hydrants shall be installed in conformance with Title 20, County of Los Angeles Government Code and County of Los Angeles Fire Code, or appropriate city regulations. This shall include minimum six-inch diameter mains. Arrangements to meet these requirements must be made with the water purveyor serving the area.

RFS No. 08-0014335

Parcel Map No. 069445

Vicinity: Acton

Tentative Parcel Map Date: May 20, 2008 (2nd Revision)

The County of Los Angeles Department of Public Health has no objection to this subdivision and **Tentative Parcel Map 069445** is cleared for public hearing. The following conditions still apply and are in force:

1. The preliminary feasibility reports have been received and reviewed. The data supports the installation of onsite wastewater treatment systems on each of the proposed parcels. **Prior to installation of any onsite waste water treatment system**, a complete feasibility report, including site inspection by the Department will be required in accordance with the Los Angeles County Code. Any factors that may influence the efficient operation of the onsite waste water treatment systems will be evaluated. The applicant is advised that installation of a non-conventional onsite waste water treatment system is required when percolation tests exceed the requirements of the Los Angeles County Code.
2. Public sanitary sewers are not available within 200 feet of any part of the proposed subdivision and each parcel is dependent upon the use of an individual onsite waste water treatment system.
3. **The applicant is advised, that in the event that the requirements of the plumbing code cannot be met on certain parcels, due to future grading or for any other reason, the County of Los Angeles Department of Public Health will deny issuance of a building permit on these parcels.**
4. The proposal for a shared water well to supply potable water to the subdivision has been approved by this Department. Based on the documents provided, the well will provide each connection with water of sufficient quantity and conforms to the California Safe Drinking Water Act and the Los Angeles County Code, Title 11, chapter 11:38. The applicant is advised that proposed shared wells must also be approved by Regional Planning.

GENERAL INFORMATION

I.A. Map Date: April 11, 2007 Staff Member: Michele Bush
Thomas Guide: 4374 D3 USGS Quad: Sleepy Valley
Location: Michael St and Vic Chashan Rd Acton

Description of Project: The proposed project is a request for a Tentative Tract Map to subdivide 12.49 Acres (one existing parcel) into two lots. No construction is proposed at this time. The current property use is Vacant, undeveloped and undisturbed. The project applicant is requesting a CUP for hillside management (RCUP 200700144) and a water well permit (200700003). The project will use water wells and private septic Sewer disposal systems. No grading is proposed at this time.

Gross Acres: 12.49
Environmental Setting: The project site is located on Michael Street and Vic Chashan Road Acton, Approximately nine miles west of Angeles Forest. It is 2.5 miles east of the Agua Dulce Airport and one mile North of Antelope Valley Freeway (14), within the unincorporated Los Angeles County community of Acton. Surrounding land uses within a 1,000 foot radius consist of single-family dwelling units, vacant land and a Church. There are no structures or Oak trees on the project site.

Zoning: A-2-1 (Heavy Agricultural Zone)
General Plan: R-Non-Urban
Community/Area wide Plan: Santa Clarity Valley

Environmental Finding:

FINAL DETERMINATION: On the basis of this Initial Study, the Department of Regional Planning finds that this project qualifies for the following environmental document:

- ☒ NEGATIVE DECLARATION, inasmuch as the proposed project will not have a significant effect on the environment.

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was determined that this project will not exceed the established threshold criteria for any environmental/service factor and, as a result, will not have a significant effect on the physical environment.

- ☐ MITIGATED NEGATIVE DECLARATION, in as much as the changes required for the project will reduce impacts to insignificant levels (see attached discussion and/or conditions).

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was originally determined that the proposed project may exceed established threshold criteria. The applicant has agreed to modification of the project so that it can now be determined that the project will not have a significant effect on the physical environment. The modification to mitigate this impact(s) is identified on the Project Changes/Conditions Form included as part of this Initial Study.

- ☐ ENVIRONMENTAL IMPACT REPORT*, inasmuch as there is substantial evidence that the project may have a significant impact due to factors listed above as "significant".

- ☐ At least one factor has been adequately analyzed in an earlier document pursuant to legal standards, and has been addressed by mitigation measures based on the earlier analysis as described on the attached sheets (see attached Form DRP/IA 101). The Addendum EIR is required to analyze only the factors changed or not previously addressed.

Reviewed by:	<u>Michele Bush</u> <i>Michele R. Bush</i>	Date:	<u>June 24, 2008</u>
Approved by:	<u>Paul McCarthy</u> <i>Paul McCarthy</i>	Date:	<u>June 24, 2008</u>

- ☐ This proposed project is exempt from Fish and Game CEQA filing fees. There is no substantial evidence that the proposed project will have potential for an adverse effect on wildlife or the habitat upon which the wildlife depends. (Fish & Game Code 753.5).

- ☐ Determination appealed – see attached sheet.

*NOTE: Findings for Environmental Impact Reports will be prepared as a separate document following the public hearing on the project.

HAZARDS - 1. Geotechnical

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Is the project located in an active or potentially active fault zone, Seismic Hazards Zone, or Alquist-Priolo Earthquake Fault Zone? <u>DRP GIS: Approximate 4 miles east of Tick Canyon and mint Canyon Fault.</u>
b.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Is the project site located in an area containing a major landslide(s)? <u>DRP GIS - Land Slide Inventory: Project adjacent to a land slide.</u>
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Is the project site located in an area having high slope instability? <u>DRP GIS - Land Slide Inventory: Project adjacent to a land slide.</u>
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site subject to high subsidence, high groundwater level, liquefaction, or hydrocompaction?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposed project considered a sensitive use (school, hospital, public assembly site) located in close proximity to a significant geotechnical hazard?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project entail substantial grading and/or alteration of topography including slopes of over 25%? <u>No grading is proposed at this time.</u>
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project be located on expansive soil, as defined in Table 18-1-B of Uniform Building Code (1994), creating substantial risks to life or property?
h.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

- ☐ Building Ordinance No. 2225 – Sections 308B, 309, 310, and 311 and Chapters 29 and 70
- ☐ MITIGATION MEASURES ☒ OTHER CONSIDERATIONS
- ☐ Lot Size ☐ Project Design ☐ Approval of Geotechnical Report by DPW

Comply with SCM recommendation from Public Works.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **geotechnical** factors?

- ☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No Impact

HAZARDS - 2. Flood

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the major drainage course, as identified on USGS quad sheets by a dashed line, located on the project site?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located within or does it contain a floodway, floodplain, or designated flood hazard zone?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in or subject to high mudflow conditions?
d.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Could the project contribute or be subject to high erosion and debris deposition from run-off?
				<i>Project is within a Hillside Management Area.</i>
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project substantially alter the existing drainage pattern of the site or area?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors (e.g., dam failure)?

STANDARD CODE REQUIREMENTS

☐ Building Ordinance No. 2225 – Section 308A ☐ Ordinance No. 12,114 (Floodways)

☐ Approval of Drainage Concept by DPW

☐ MITIGATION MEASURES

☒ OTHER CONSIDERATIONS

☐ Lot Size ☐ Project Design

Comply with SCM recommendation from Public Works.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **flood (hydrological)** factors?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

HAZARDS - 3. Fire

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site located in a Very High Fire Hazard Severity Zone (Fire Zone 4)? <i>DRP GIS Very High Fire Hazard Severity Zone: Project is within the Very Fire Hazard Severity Zone</i>
b.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site in a high fire hazard area and served by inadequate access due to lengths, width, surface materials, turnarounds or grade? <i>Project is within unpaved road area</i>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site have more than 75 dwelling units on a single access in a high fire hazard area? <i>No construction is proposed at this time</i>
d.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area having inadequate water and pressure to meet fire flow standards? <i>No Water Service in area.</i>
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project located in close proximity to potential dangerous fire hazard conditions/uses (such as refineries, flammables, explosives manufacturing)?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the proposed use constitute a potentially dangerous fire hazard?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

- ☐ Water Ordinance No. 7834 ☐ Fire Ordinance No. 2947 ☐ Fire Regulation No. 8
☐ Fuel Modification / Landscape Plan

☐ MITIGATION MEASURES

☒ OTHER CONSIDERATIONS

- ☐ Project Design ☐ Compatible Use

Comply with Subdivision Committee requirements from Fire Department.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **fire hazard** factors?

- ☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

HAZARDS - 4. Noise

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located near a high noise source (airports, railroads, freeways, industry)?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposed use considered sensitive (school, hospital, senior citizen facility) or are there other sensitive uses in close proximity?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project substantially increase ambient noise levels including those associated with special equipment (such as amplified sound systems) or parking areas associated with the project?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels without the project?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

☐ Noise Control (Title 12 – Chapter 8) ☐ Uniform Building Code (Title 26 - Chapter 35)

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size ☐ Project Design ☐ Compatible Use

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by **noise**?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

RESOURCES - 1. Water Quality

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area having known water quality problems and proposing the use of individual water wells? <u>Private water wells will be provided to service project site.</u>
b.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Will the proposed project require the use of a private sewage disposal system? <u>Private septic disposal will be provided to service project site.</u>
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	If the answer is yes, is the project site located in an area having known septic tank limitations due to high groundwater or other geotechnical limitations <i>or</i> is the project proposing on-site systems located in close proximity to a drainage course?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project's associated construction activities significantly impact the quality of groundwater and/or storm water runoff to the storm water conveyance system and/or receiving water bodies? <u>NPDES Compliance</u>
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project's post-development activities potentially degrade the quality of storm water runoff and/or could post-development non-storm water discharges contribute potential pollutants to the storm water conveyance system and/or receiving bodies?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors? <u>NPDES Compliance</u>

STANDARD CODE REQUIREMENTS

- | | |
|--|---|
| <input type="checkbox"/> Industrial Waste Permit | <input type="checkbox"/> Health Code – Ordinance No.7583, Chapter 5 |
| <input type="checkbox"/> Plumbing Code – Ordinance No.2269 | <input checked="" type="checkbox"/> NPDES Permit Compliance (DPW) |

☐ MITIGATION MEASURES

- ☐ Lot Size ☐ Project Design ☐ Compatible Use

☐ OTHER CONSIDERATIONS

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by, **water quality** problems?

- ☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

RESOURCES - 2. Air Quality

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the proposed project exceed the State's criteria for regional significance (generally (a) 500 dwelling units for residential users or (b) 40 gross acres, 650,000 square feet of floor area or 1,000 employees for non-residential uses)? <u>No construction proposed at this time.</u>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposal considered a sensitive use (schools, hospitals, parks) and located near a freeway or heavy industrial use? <u>No construction proposed at this time.</u>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project increase local emissions to a significant extent due to increased traffic congestion or use of a parking structure or exceed AQMD thresholds of potential significance? <u>No construction proposed at this time.</u>
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project generate or is the site in close proximity to sources that create obnoxious odors, dust, and/or hazardous emissions? <u>No construction proposed at this time.</u>
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project conflict with or obstruct implementation of the applicable air quality plan?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project violate any air quality standard or contribute substantially to an existing or projected air quality violation?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under applicable federal or state ambient air quality standard (including releasing emission which exceed quantitative thresholds for ozone precursors)?
h.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

☐ Health and Safety Code – Section 40506

☐ MITIGATION MEASURES

☐ Project Design ☐ Air Quality Report

☐ OTHER CONSIDERATIONS

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by, **air quality**?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

RESOURCES - 3. Biota

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located within Significant Ecological Area (SEA), SEA Buffer, or coastal Sensitive Environmental Resource (ESHA, etc.), or is the site relatively undisturbed and natural?
b.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Will grading, fire clearance, or flood related improvements remove substantial natural habitat areas? <i>Project site is undisturbed.</i>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is a drainage course located on the project site that is depicted on USGS quad sheets by a dashed blue line or that may contain a bed, channel, or bank of any perennial, intermittent or ephemeral river, stream, or lake?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain a major riparian or other sensitive habitat (e.g. coastal sage scrub, oak woodland, sycamore riparian, woodland, wetland, etc.)?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain oak or other unique native trees (specify kinds of trees)?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site habitat for any known sensitive species (federal or state listed endangered, etc.)?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors (e.g., wildlife corridor, adjacent open space linkage)?

☐ MITIGATION MEASURES

☐ Lot Size ☐ Project Design

☐ OTHER CONSIDERATIONS

☐ ERB/SEATAC Review ☐ Oak Tree Permit

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, **biotic** resources?

☐ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

RESOURCES - 4. Archaeological/Historical/Paleontological

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site in or near an area containing known archaeological resources or containing features (drainage course, spring, knoll, rock outcroppings, or oak trees) that indicate potential archaeological sensitivity? <i>The project area has been fully surveyed by a professional archaeologist, on November 5, 2007, and cultural resources were found. CA-LAN-1064 Historic Refuse Deposit within 1/4 mile of project boundaries.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain rock formations indicating potential paleontological resources? <i>Plate 2 Engineering Geologic Materials: Qs-Quaternary Alluvium or marine terrace deposits, fine to medium grained and Bm-Crystalline or Metamorphic Rock.</i>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain known historic structures or sites?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project cause a substantial adverse change in the significance of a historical or archaeological resource as defined in 15064.5?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☒ **MITIGATION MEASURES**

☐ **OTHER CONSIDERATIONS**

☐ Lot Size ☐ Project Design ☐ Phase 1 Archaeology Report

A professional archaeologist should be retained to monitor any earth moving operations. A previous survey of the subject property LA 804 (1980) recommended "that a qualified historical archaeologist be retained to monitor any earth moving activities (grading, trenching, etc.) to ascertain that there are no additional significant cultural deposits on the property." Buried archaeological resources may be present. If any additional cultural resources are uncovered during project activities please submit reports to this office as soon as possible.

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **archaeological, historical, or paleontological** resources?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

RESOURCES - 5. Mineral Resources

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in the loss of availability of a locally important mineral resource discovery site delineated on a local general plan, specific plan or other land use plan?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors? <hr/> <hr/>

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size ☐ Project Design

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **mineral** resources?

☒ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

RESOURCES - 6. Agriculture Resources

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency to non-agricultural use?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project conflict with existing zoning for agricultural use, or a Williamson Act contract?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project involve other changes in the existing environment that due to their location or nature, could result in conversion of Farmland, to non-agricultural use?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size

☐ Project Design

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **agriculture** resources?

☐ Potentially significant

☐ Less than significant with project mitigation ☒ Less than significant/No impact

RESOURCES - 7. Visual Qualities

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site substantially visible from or will it obstruct views along a scenic highway (as shown on the Scenic Highway Element), or is it located within a scenic corridor or will it otherwise impact the viewshed?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project substantially visible from or will it obstruct views from a regional riding or hiking trail?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an undeveloped or undisturbed area that contains unique aesthetic features? <i>Project site is located on an undeveloped and undisturbed area. There is no evidence of unique aesthetic features.</i>
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposed use out-of-character in comparison to adjacent uses because of height, bulk, or other features?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project likely to create substantial sun shadow, light or glare problems?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors (e.g., grading or landform alteration)?

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size

☐ Project Design

☐ Visual Report

☐ Compatible Use

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **scenic** qualities?

☐ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

SERVICES - 1. Traffic/Access

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project contain 25 dwelling units or more and is it located in an area with known congestion problems (roadway or intersections)? <i>No construction is proposed at this time.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project result in any hazardous traffic conditions? <i>No construction is proposed at this time.</i>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project result in parking problems with a subsequent impact on traffic conditions? <i>No construction is proposed at this time.</i>
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will inadequate access during an emergency (other than fire hazards) result in problems for emergency vehicles or residents/employees in the area?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the congestion management program (CMP) Transportation Impact Analysis thresholds of 50 peak hour vehicles added by project traffic to a CMP highway system intersection or 150 peak hour trips added by project traffic to a mainline freeway link be exceeded?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project conflict with adopted policies, plans, or program supporting alternative transportation (e.g., bus, turnouts, bicycle racks)?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Project Design ☐ Traffic Report

☐ Consultation with Traffic & Lighting Division

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **traffic/access** factors?

☐ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

SERVICES - 2. Sewage Disposal

This project is proposing a septic system, this page is not applicable.

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	If served by a community sewage system, could the project create capacity problems at the treatment plant?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create capacity problems in the sewer lines serving the project site?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

☐ Sanitary Sewers and Industrial Waste – Ordinance No. 6130

☐ Plumbing Code – Ordinance No. 2269

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **sewage disposal** facilities?

☐ Potentially significant

☐ Less than significant with project mitigation ☒ Less than significant/No impact

SERVICES - 3. Education

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create capacity problems at the district level?
				<i>No construction is proposed at this time.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create capacity problems at individual schools that will serve the project site?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create student transportation problems?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create substantial library impacts due to increased population and demand?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Site Dedication ☐ Government Code Section 65995 ☐ Library Facilities Mitigation Fee

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **educational** facilities/services?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

SERVICES - 4. Fire/Sheriff Services

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create staffing or response time problems at the fire station or sheriff's substation serving the project site? <i>No construction is proposed at this time.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Are there any special fire or law enforcement problems associated with the project or the general area?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Fire Mitigation Fee

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **fire/sheriff** services?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

SERVICES - 5. Utilities/Other Services

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Is the project site in an area known to have an inadequate public water supply to meet domestic needs or to have an inadequate ground water supply and proposes water wells?
				<i>Project proposes ground water well water supply.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site in an area known to have an inadequate water supply and/or pressure to meet fire fighting needs?
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Could the project create problems with providing utility services, such as electricity, gas, or propane?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Are there any other known service problem areas (e.g., solid waste)?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services or facilities (e.g., fire protection, police protection, schools, parks, roads)?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

☐ Plumbing Code – Ordinance No. 2269 ☐ Water Code – Ordinance No. 7834

☐ MITIGATION MEASURES

☐ Lot Size ☐ Project Design

☐ OTHER CONSIDERATIONS

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **utilities** services?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

OTHER FACTORS - 1. General

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project result in an inefficient use of energy resources?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project result in a major change in the patterns, scale, or character of the general area or community?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project result in a significant reduction in the amount of agricultural land?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

☐ State Administrative Code, Title 24, Part 5, T-20 (Energy Conservation)

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size

☐ Project Design

☐ Compatible Use

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to any of the above factors?

☐ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

OTHER FACTORS - 2. Environmental Safety

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Are any hazardous materials used, transported, produced, handled, or stored on-site?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Are any pressurized tanks to be used or any hazardous wastes stored on-site?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Are any residential units, schools, or hospitals located within 500 feet and potentially adversely affected?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Have there been previous uses that indicate residual soil toxicity of the site or is the site located within two miles downstream of a known groundwater contamination source within the same watershed?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project create a significant hazard to the public or the environment involving the accidental release of hazardous materials into the environment?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project emit hazardous emissions or handle hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would create a significant hazard to the public or environment?
h.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Would the project result in a safety hazard for people in a project area located within an airport land use plan, within two miles of a public or public use airport, or within the vicinity of a private airstrip?
i.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?
j.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☐ Toxic Clean-up Plan

☐ OTHER CONSIDERATIONS

CONCLUSION

Considering the above information, could the project have a significant impact relative to **public safety**?

☒ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

OTHER FACTORS - 3. Land Use

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Can the project be found to be inconsistent with the plan designation(s) of the subject property?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Can the project be found to be inconsistent with the zoning designation of the subject property?
c.				Can the project be found to be inconsistent with the following applicable land use criteria:
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Hillside Management Criteria?
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	SEA Conformance Criteria?
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project physically divide an established community?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ **MITIGATION MEASURES**

☐ **OTHER CONSIDERATIONS**

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **land use** factors?

☐ Potentially significant
 ☐ Less than significant with project mitigation
 ☒ Less than significant/No impact

OTHER FACTORS - 4. Population/Housing/Employment/Recreation

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project cumulatively exceed official regional or local population projections?
				<i>No construction is proposed at this time.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project induce substantial direct or indirect growth in an area (e.g., through projects in an undeveloped area or extension of major infrastructure)?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project displace existing housing, especially affordable housing?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project result in substantial job/housing imbalance or substantial increase in Vehicle Miles Traveled (VMT)?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project require new or expanded recreational facilities for future residents?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **population, housing, employment, or recreational** factors?

☒ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

MANDATORY FINDINGS OF SIGNIFICANCE

Based on this Initial Study, the following findings are made:

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?
				<i>Project site is undeveloped and undisturbed.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project have possible environmental effects that are individually limited but cumulatively considerable? "Cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the environmental effects of the project cause substantial adverse effects on human beings, either directly or indirectly?

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the environment?

☐ Potentially significant ☐ Less than significant with project mitigation ☒ Less than significant/No impact

Such other information as the planning director determines to be necessary for adequate evaluation. The planning director may waive one or more of the above items where he deems such item(s) to be unnecessary to process the application.

HILLSIDE MANAGEMENT AND SIGNIFICANT ECOLOGICAL AREAS – BURDEN OF PROOF

A. Hillside Management Areas (Section 22.56.215 F.1):

1. That the proposed project is located and designed so as to protect the safety of current and future residents, and will not create significant threats to life and/or property due to the presence of geologic, seismic, slope instability, fire, flood, mud flow or erosion hazard;

See attached

2. That the proposed project is compatible with the natural, biotic, cultural, scenic, and open space resources of the area;

See attached

3. That the proposed project is conveniently served by (or provides) neighborhood shopping and commercial facilities, can be provided with essential public services without imposing undue costs on the total community, and is consistent with the objectives and policies of the General Plan;

See attached

4. That the proposed project development demonstrates creative and imaginative design resulting in a visual quality that will complement community character and benefit current and future residents.

See attached

(Over for SEA)

Parcel Map No. 69445

CUP 200700144

Burden of Proof

1. The proposed project will provide 2 SFR lots which will fit into the surrounding area. The proposed density of 0.16 units per acre (6.25 acres / unit) which is far less than the plan designation N1. The proposed building sites were chosen to minimize grading of the site and to provide good views. All grading will be done in accordance with all applicable building codes to ensure that no damage can be done to surrounding properties. The site does not have any geologic, seismic, or slope stability problems. Fire hazards will be reduced by providing a Fuel Modification Plan that will provide brush clearance and landscaping buffer zones around the proposed structures.
2. The surrounding area is developed with low density residential. This project will fit with the surrounding development. No cultural resources will be impacted. The project design has been situated to stay off of the steeper slopes on the property. This undisturbed area will be provided as open space. The project site provides for 89.7 percent open space.
3. There are neighborhood shopping and commercial facilities within 5 miles of this site. The existing Aqua Dulce area utilizes these shopping and commercial facilities. The Fire Department has a station 5.7 miles from the site; building permit fees provide for mitigation of the new units. The Acton – Aqua Dulce School District has facilities in the area; building permit fees provide for the mitigation. The project is consistent with the objectives and policies of the General Plan by being consistent with the Hillside Design Criteria. The project also provides for needed housing in support of the Housing Element. Project density is 0.16 units per acre (6.25 acres / unit) which is less than the General Plan Density (N1) of 0.5 unit / acre (2 acres / unit).
4. The proposed grading on Exhibit “A” shows minimal grading that will be blended into the surrounding terrain. Due to the terrain, the pads will be shielded from view from Penman Road. The project grading was designed to provide terraced building areas instead of one large building area. This minimizes the earthwork of the project while providing for an aesthetically pleasing design. This also minimizes the slope height that will be seen by surrounding property owners.

Dear Mr. Huntington:

On June 11, 2008, Mr. Larry Tuma of Land Tech Engineering representing Daniel & Jacque Guin and Ellis & Sarah Herz, presented a Vesting Tentative Parcel Map No. 69445 and grading Exhibit "A" to the Agua Dulce Town Council. The Agua Dulce Town Council has determined the proposed project is within the Agua Dulce Community Standards District and the parcel map complies with the minimum lot sizes allowed in the Standards District.

This project must comply with all Los Angeles County Codes in effect at time of approval.

If you need any further information, please contact us.

Sincerely,

Donal MacAdam

Donal MacAdam, President
Agua Dulce Town Council, 2008
